Service offering

Grant Thornton global technology platform

Our solution is enabled by our unique technology:

- technology built on Thomson Reuters' ONESOURCE suite;
- provides global transparency and real-time visibility with access to key metrics;
- enhances reporting and coordination allowing for real-time information for key stakeholders and decision-makers;
- is adaptable to any service offering and highly configurable;
- assists the preparation of consistent "look and feel" financial statements through an automated process which are technically excellent;
- creates scale of efficiency;
- allows document management which is linked to each workflow; and
- provides superior dataflow analytics and collection.

Accounts production:

- centralised software tool;
- enables local accounts preparation; and
- technically excellent and consistent accounts.

Calendar:

- robust global tax statutory content; and
- customised event scheduling and tracking.

WorkFlow:

- manage processes and tasks; and
- provides real time status updates.

DataFlow:

- secure, standard data collection; and
- extended Excel capabilities.

File room

- manage and share documents; and
- control access and manage versions.
