

Data Protection Assessments

Is your organisation following good data protection practice and complying with applicable legal obligations?

Our data protection assessment process not only identifies data protection risks but proposes prioritised, pragmatic, implementable recommendations to gain, maintain and enhance compliance levels within your organisation aligned to your risk appetite.

Grant Thornton's Data Protection Team have extensive experience in conducting Data Protection and GDPR Assessments across a wide variety of industries in private and public sectors and for both data controllers and data processors.

You get what we do

Comprehensive discovery

- understand where you are on your data protection compliance journey;
- understand data protection risks throughout your organisation; and
- understand what good looks like for you.

Informed analysis

- gain insightful analysis informed from GDPR requirements, relevant supervisory authority guidance and international leading practice; and
- be informed from deep data protection expertise and industry experience.

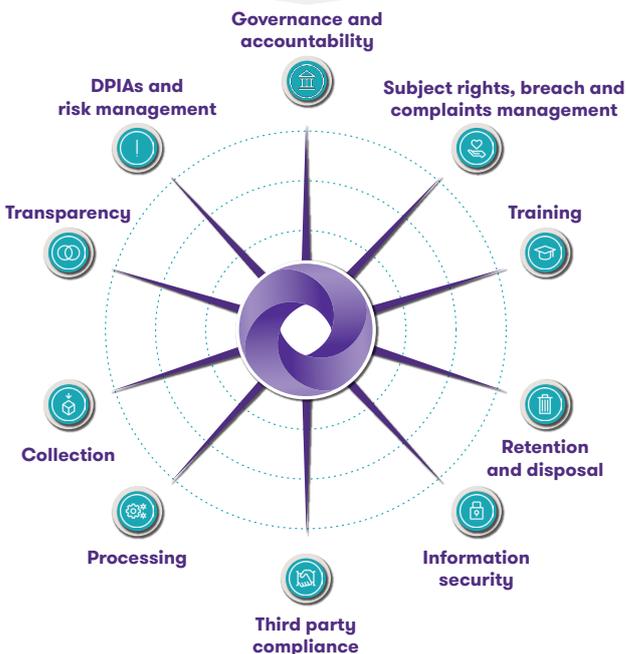

Practical reporting

- demonstrate compliance to regulators and key stakeholders
- obtain clear and concise findings and recommendations
- realise a pragmatic and implementable plan.
