

Forensic & Investigation Services

Clarity in complex, high-stakes matters.

Forensic Accounting

Financial investigation, expert evidence and dispute support

Expert Witness & Disputes

Investigations & Fraud

Forensic Audits & Contract Review

Expert reports, loss quantification, business interruption, shareholder disputes, tax and regulatory matters.

Forensic Technology

Data-led investigation, evidence and insight at scale

Digital Forensics

eDiscovery

AI & Analytics

Complex collections, communications analysis, DSARs and regulatory response.

Expert-Led Delivery

Senior, hands-on expertise across accounting and technology. The same team leads the work and stands over the output.

Proven at Scale

Experience on some of the largest investigations and discovery exercises undertaken in both Ireland and abroad. From multi-million document reviews to complex financial investigations, we are built to handle volume, complexity and pressure.

Trusted & Secure

ISO-certified forensic laboratory with data held and processed within our own controlled environment. Dedicated infrastructure and on-premise servers ensure full control, auditability and secure handling of sensitive data.

Defensible Under Scrutiny

Experience supporting matters that proceed to court and regulatory review. Work includes affidavit preparation, expert reports and evidence handling to police-standard requirements.

Flexible Technology-Led Models

Our approach is tailored to the scale and nature of each matter. Our state-of-the-art technology stack is deployed to reduce manual effort and focus on what is relevant.
