

Energy & Utilities

Providing Business Consultancy Services to organisations in the Energy & Utilities sector.

We recognise every challenge is unique and we adopt a bespoke approach to each engagement.

We provide a wide range of supports to the Energy & Utilities sector.

Decarbonisation and new regulations are driving significant changes in the Energy & Utilities sector.

Our Energy & Utilities service line has a wealth of consulting experience in the industry, both nationally and internationally. We provide bespoke consultancy services to some of Ireland's largest energy and utility organisations, supporting them in delivering efficient operations and achieving their strategic objectives.

The breadth of our client base has allowed us to gain valuable insight into the complexity and the variety of issues facing the sector. Given the level of change in the sector with I-SEM and the push towards renewable energy, the industry has a greater task of adapting to consumer requirements and navigating adverse public perception.

Having worked closely with a number of diverse clients across the Energy & Utilities sector, we have ample exposure to the pressures facing companies and we possess the expertise, capabilities and experience to offer tailored support.

Your organisation can rely on our highly experienced, local and committed teams to deliver cost effective and efficient engagements.

Grant Thornton is Ireland's fastest growing professional services firm. We deliver solutions to all business challenges.
